Class 7 Science – Chapter 1: The Ever-Evolving World of Science (1.2 Observation, Hypothesis, Experiment)

1. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

2. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

3. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

4. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

5. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

6. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

7. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

8. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

9. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

10. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

11. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

12. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

13. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

14. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

15. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

16. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

17. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

18. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

19. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

20. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

21. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

22. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

23. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

24. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

25. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

26. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

27. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

28. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

29. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

30. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

31. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

32. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

33. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

34. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

35. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

36. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

37. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

38. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

39. Which step comes first in scientific investigation?

A) Experiment B) Observation C) Conclusion D) Report

Answer: B) Observation

40. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

41. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

42. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

43. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

44. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

45. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

46. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

47. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

48. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

49. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation

50. Which step comes first in scientific investigation?
A) Experiment B) Observation C) Conclusion D) Report
Answer: B) Observation
